11. Data Security.

Secure Sockets Layer, or SSL, is an encryption technology that provides secure communications over the Internet. It does this by verifying that the server to which you are connected is actually the one it claims to be. It also encrypts all transactions between the parties communicating. Encryption is the scrambling of information as it is transmitted over the Internet to protect your confidentiality. Personal information passing between your computer and/or mobile device and many of our services is encrypted. This means that while your information is in transit it is scrambled so that only we can reassemble it in its original text format. The donations page of the Site has HTTPS automatically enabled. All critical interfaces and functions (i.e. user authentication, payment transactions (PCI data) and PII related processes) are only accessible using at least TLS v1.2. The Site has a multiple layer security architecture to help protect against 0-day security issues. Firewalls and intrusion prevention systems are in place to prevent unauthorized access.

Unfortunately, transmission of information through the Internet cannot be completely secure. Although we do our best to protect your personal information, we cannot guarantee the security of your personal information transmitted to us through the Site. Any transmission of personal information is at your own risk. We are not responsible for circumvention of any privacy settings or security measures contained on the Site.

12. Other Limits to Your Privacy.

We may provide you with links to other websites and may approve other websites to obtain online tracking information from the Site. We are not responsible for the privacy practices or the content of such websites. When you utilize the Site, the information that you disclose, including in any audio instructions, may become public information. We have no control over its use and you should exercise caution when deciding to disclose your personal information.

13. CAN-SPAM Act.

The CAN-SPAM Act is a law that sets the rules for commercial email, establishes requirements for commercial messages, gives recipients the right to have emails stopped from being sent to them.

If at any time you would like to unsubscribe from receiving future emails, you can email us at info@roseadvocacy.org and we will promptly remove you from ALL correspondence.

14. Updates and Changes to Privacy Statement.
